# STAR CLEAN

## BROCHURE

# PRODUCTS

# What is Star Clean?

STAR CLEAN is a water-based solution for all kind of heavy duty cleaning, such as oil stain, grease, carbon soot and many more without surface damage and collision.

Our products have a special feature that seclude petroleam molecular out off from dirts and compound with liquid by not suspendible after cleaning. That is make STAR CLEAN relatively safe for both users and environmental-friendly.

Star Clean Before-After Cleaning Demonstration

## What is STAR CLEAN qualification?

It is biodegradable solution with clear and mild colour without strong odour with pH11.0-12.0.

## How to use STAR CLEAN?

Simple, just mix STAR CLEAN with water in proper ratio suitable for desire function in foggy. Spray it on a dirty spot and then sweep away with dry clothes or sponge, no need to use much water though.

## Is it easy to store and handle?

Yes, it is! All you need to do is keep it in dry place without any special requirement. We have 2 sizes of package available for customers, which are 5 litres gallon and 20 litres tank.

## Is STAR CLEAN environmental-friendly?

Of course, it is definitely safe for ecosystem. Especially, our products are not causing water pollution.

Star Clean Before-After Cleaning Demonstration

## Does STAR CLEAN affect any health issues to users?

STAR CLEAN does not cause inhalation damage due to low vapour pressure, but it may have a little transient redness after skin contact. Rinse with clean water to prevent irritation

## What can we do in accidental leaking?

Sweep up with sweeping mop, collect it in a container and then flush any traces away with water.

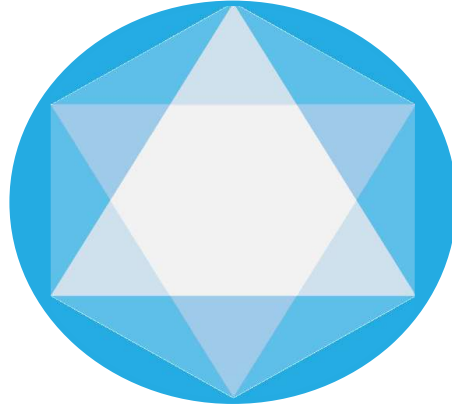

## Where to buy STAR CLEAN?

You can order directly from P.P.B. Chemical and Supplies Co.,Ltd via both e-mail and calling.

## What is fire-fighting measures?

STAR CLEAN is not an inflammable material and not a combustible flash point.
